

Bass Lake Chamber of Commerce

It is described by many as one of the best shows in California.

One of the oldest traditions at Bass Lake is the Fourth of July fireworks displays. The first fireworks display was staged from the dock of the Falls Resort by Fred Homan in 1937. We have the rare distinction of having the godson of the original show, J.T. Combs, still involved. Combs has been involved in the development of shows at Disneyland, Great America and both of Ronald Reagan's inaugurations but Bass Lake is still his favorite show.

In 2010 the barge used to launch the fireworks was determined unusable and needed to be replaced. Thanks to the generous donations we received from you and from Donaghy Sales we were able to acquire a new barge. Our community and visitors really stepped up and we were overwhelmed by the generosity in these tough economic times. Although our out of pocket costs were greatly reduced we still have a bit to go to pay for it.

As you know the fireworks are supported entirely by donations from the community businesses, homeowners and visitors. No amount is too small and every little bit will ensure the continued tradition that brings smiles and cheers from young and old alike.

Thanking you in advance for your generosity.
